Personal Statement

Frontend Developer & UX Designer with a strong foundation in digital architecture, user psychology, and conversion analytics. Transitioned from scaling high-traffic web ecosystems and custom WordPress/CSS integrations to engineering modern full-stack web applications using React, Tailwind CSS, and Node.js. Leveraging a proven background in commercial strategy and cross-functional agency coordination, I bring a highly analytical, data-backed perspective to frontend software development. Highly adept at bridging the gap between product strategy and frontend architecture - demonstrated by leading platform builds from initial conceptual mapping to live production and CDN deployment. Combines clean, component-driven engineering to build accessible, high-performance web applications that solve core business problems. Dedicated to delivering maintainable, optimized code that remove user friction and drive measurable digital performance.

Professional Competencies

UX/UI Design & Information Architecture • Frontend Architecture • Component-Driven Development • Conversion Rate Optimization (CRO) • Responsive Web Design • Technical SEO & Accessibility • Cross-functional Collaboration

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, C#, SQL
Frontend Frameworks: React, Next.js, Vue.js, Angular,
Backend & APIs: Node.js, Express, .NET Core, RESTful APIs
Databases: MongoDB, SQL Server
Testing Frameworks: Jest, Cypress

Testing Frameworks: Jest, Cypress
Styling & UI: Tailwind CSS, Bootstrap, NativeWind
Tools & DevOps: Git/GitHub, Netlify, WordPress, Elementor
Design & Prototyping: Figma, UX Pilot, Adobe Creative Cloud
Performance & Analytics: Prisma, Drizzle Google Analytics, Technical SEO, Conversion Rate Optimization (CRO)

🖥️ Technical Portfolio | LukeArcherDesign.com

3 Production-grade web applications & commercial ecosystems:

The After Party (Commercial Platform): React, Tailwind CSS, Node.js, Netlify

Haven Falls (eCommerce Store): MERN Stack (MongoDB, Express, React, Node.js)

Powerhouse Studios (Commercial Ecosystem): WordPress, Elementor, Custom CSS Architecture

👛 Professional Experience

Frontend & UX Lead at ABL Health, Durham (hybrid)

Jan 2025 - Present

- Architected and engineered a responsive, component-driven digital web application using React and Tailwind CSS, deploying via Netlify CDN to serve as the single source of truth for platform media and content distribution
- Spearheaded frontend layout strategy and interactive user journey mapping, streamlining content access mechanics and seamlessly integrating multi-platform production APIs
- Implemented a custom lightweight CMS architecture to optimize content delivery workflows, significantly decreasing deployment friction and page-load latency for decentralized blog administration

Technical stack:

React Native, React, Node.js, Express, PostgreSQL, Drizzle, Redux, Jest, Cypress, Azure DevOps, Git

Marketing & Content Manager at Powerhouse Studios (remote)

April 2022 - Present

- Re-engineered core corporate web properties using WordPress and Elementor, implementing custom CSS semantic layout overrides to bypass core theme restrictions and enhance design system uniformity
- Spearheaded comprehensive technical and on-page SEO restructurings, delivering a documented 600% increase in organic web traffic and optimizing platform performance indexing
- Designed scalable multi-channel digital campaign frameworks, translating business conversion targets into responsive visual interfaces and accessible data assets

Technical stack:

WordPress, Elementor, Custom CSS, Technical SEO, Google Analytics, Canva, Adobe Creative Suite

Marketing & Digital Coordinator at Leightons Opticians (hybrid)

April 2024 - March 2025

- Coordinated with cross-functional development teams and external agencies, translating corporate marketing initiatives into technical and design specifications for pixel-perfect cross-platform deployment
- Managed the layout architecture and end-to-end execution of high-impact digital seasonal campaigns, optimizing conversion funnels and user acquisition loops across major commercial rollouts
- Produced and managed a centralized repository of dynamic digital assets and data visualizations, maintaining strict visual compliance and brand token integrity across corporate layout structures

Digital Marketing & Digital Content Manager at Kane FM (remote)

September 2023 - March 2024

- Led an end-to-end brand identity restructuring and design token development, delivering a completely updated unified visual framework including logos, responsive vector icons, and cohesive typography systems
- Optimized web layout hierarchies and interactive interface patterns to elevate core content discovery, improving mobile responsiveness and search engine visibility
- Collaborated on digital campaign specifications and workflow automations, translating broad promotional objectives into high-converting user pathways

Marketing Manager at Powerhouse Studios (hybrid)

July 2021 - September 2023

- Overhauled multi-brand visual design systems, constructing modular interface components, icons, and layout graphics to ensure comprehensive visual consistency across distributed client touchpoints
- Produced high-fidelity multimedia assets and promotional video systems, optimizing timeline pacing, audio engineering, and motion graphics inside Premiere Pro and After Effects to maximize viewer retention metrics
- Designed and scheduled cross-platform digital interface components, tracking engagement analytics data to continuously refine layout presentation and maximize audience interaction

Marketing Manager at Red Rock UK (remote)

July 2021 - September 2023

- Managed and optimized large-scale e-commerce technical database listings across Amazon and eBay, implementing rigorous keyword structures and data-backed product layouts to maximize conversion rate performance
- Monitored user behavior metrics and digital transaction analytics, iterating on layout presentation strategies to minimize checkout abandonment and streamline purchasing workflows

Education

Licentiate Degree (LTCL) at PPA Guildford (via Trinity College London)

September 2014 - July 2017

- Developed advanced verbal communication clarity, presentation mechanics, and cross-functional team collaboration dynamics under rigid production schedules.
- Cultivated strict operational discipline, milestone execution strategies, and adaptive problem-solving skills directly transferable to modern project management frameworks.
